Projects

UI/UX Designer and Marketer at Flare
Figma, Illustrator, Trello, Next.js, InDesign, After Effects
September – December 2024

- Effectively collaborated in a seven-member cross-functional team of digital designers and web developers.
- Contributed to integrating an AI-driven web application that enhanced the efficiency and safety of wildfire evacuation processes.
- Designed effective marketing materials, including business cards and brochures to enhance our brand image and professionalism in our pitch presentation.

3D Interaction Designer and Developer at PlanIt
Figma, Illustrator, Blender, Next.js, Three.js
January – May 2024

- Integrated 3D assets throughout the main user flow, significantly enhancing the overall user experience and interaction.
- Developed a web app from ideation and wireframing to final coding and testing, delivering a fully interactive prototype.
- Collaborated closely within a small, dynamic team to drive project success, leveraging strong communication and problem-solving skills.

Team Lead and UX Designer at Sakanaya
Figma, Illustrator, Trello
November – December 2023

- Directed clear project goals and objectives for a team of three, ensuring the alignment of our activities with the requirements.
- Analyzed key user touch points to optimize wireframing and prototyping processes in Figma, resulting in improved user flow and enhanced overall user experience.
- Implemented agile project management methodologies by organizing weekly sprints and daily stand-ups to encourage communication and continuous improvement.

Employment

Operations Assistant
Seafood City Granville Island
June – October 2023

- Communicated with customers providing guidance on seafood selections and ensuring accurate and efficient order processing.
- Prepared seafood to meet quality and freshness standards while maintaining compliance with health and safety regulations.
- Maintained a clean and organized environment by regularly sanitizing the facilities.
